Professional Summary

Results-driven and detail-oriented Automation Tester with 3 years of experience in manual testing(1 year relevant in automation) and designing, developing, and executing automated test scripts to ensure the highest standards of software quality. Expertise in Java, Selenium, TestNG, and API testing. Strong track record of identifying defects and collaborating with development teams to improve software delivery. Committed to ensuring defect-free software and enhancing testing processes for continuous improvement.

Key Skills :

Functional Testing

Automation Testing: Selenium, Java, TestNG

API Testing: RESTful APIs, Postman

Database Testing: MySQL

Version Control: Git, GitHub

Bug Tracking & Issue Management: JIRA

Agile/Scrum Methodology

Test Case Design & Execution

Continuous Integration (CI)

Work Experience :

Caratred Technologies

✦ **Functional Tester | March 2023 – Nov 2024**

Designed and developed manual test cases for the Ezy Gst solution, simplifying GSTR-1 filing for hotel clients and ensuring smooth integration of Opera invoices with government portals.

Led functional testing efforts, validating both manual test cases for new product features.

Utilized MySQL to validate backend functionality, ensuring data integrity between the application and databases.

Collaborated with developers and QA teams to maintain high-quality standards and ensure defect-free releases.

Aodh Intelligence Pvt Ltd

✦ Functional | Automation Tester | Oct 2021 – Feb 2023

Designed and tested the Aodh Health Human Project, a clinical hospital management platform, focusing on automation of core features and API testing.

Developed and executed automated tests for various modules using Java, Selenium, and TestNG, ensuring smooth system functionality and performance.

Conducted API testing to ensure seamless communication between hospital management services and external systems.

Collaborated in an Agile environment with cross-functional teams to improve test processes and reduce the release cycle time by 30%.

Actively participated in bug tracking and defect resolution using JIRA, ensuring timely fixes before production.

Education :

🎓 Bachelor of Technology (2015 – 2020) – JNTUH

🎓 Intermediate (2013 – 2015) – Infant Jesus International College

🎓 SSC (2013) – Sri Vidya High School

Certifications :

🏆 Selenium WebDriver with Java – (Pavan Kumar SDET Trainee)

Technical Skills :

✓ Automation Tools: Selenium WebDriver, TestNG, Java

✓ API Testing: Postman, RESTful APIs

✓ Version Control: Git, GitHub

✓ Bug Tracking Tools: JIRA

✓ Databases: MySQL

✓ Operating Systems: Windows, Linux

✓ CI/CD Tools: Jenkins (if applicable)

Languages :

🗣️ Telugu – Fluent

🗣️ Hindi – Fluent

🗣️ English – Professional Working Proficiency

Additional Information :

★ Project Management Tools: JIRA

★ Agile: Strong experience working in Agile/Scrum environments
